

2013-14 OPERATING PLAN
FIRST QUARTER PROGRESS REPORT

How does our city plan and report?

FuturesPlan20 is our community strategic plan. It was first developed in 2008 and reviewed in 2013 through significant consultation with community members, partners and stakeholders. It describes our vision for our city and the directions that we will take to promote a strong and healthy community. *FuturesPlan20* is built around four theme areas supported by broad goals and directions that will guide our City for the next 20 years. Together these four themes determine the priorities for our City and the services and projects we deliver. These services and projects form the basis of each annual Operating Plan.

Measuring our progress

In order to measure progress at each tier of the City of Canada Bay's integrated planning framework, Council has developed an assessment hierarchy designed to monitor both our outputs and their collective outcomes. The hierarchy recognises that it is equally as important to assess our efforts in an integrated manner as it is to plan them in an integrated manner. At the Operating Plan level, for each strategy, program or project included in the Plan, Council has nominated a key performance indicator (KPI). These KPIs have been nominated so that Council can track whether we are completing the strategies, programs and projects we set out to undertake each year. This is a key means of ensuring operational efficiency and effectiveness. Scores are allocated by the manager responsible for each item. Managers assign one of five score options:

1. Green+: progress on the item exceeds the KPI.
2. Green: progress on the item is on track, no remedial action required.
3. Amber: progress on the item is broadly on track although minor concerns may exist and are being addressed.
4. Red: the item is high risk, or serious concerns have arisen about Council's ability to achieve the item/KPI. Remedial action is required and/or a material budget variance is required.
5. Grey: the item is no longer applicable, relevant or achievable due to external/specific circumstances.

What's in this document?

This report outlines the City of Canada Bay's progress compared to the 2013-14 Operating Plan, as at the end of the first quarter (July - September). The report lists a progress score allocated to each of the activities listed in the Operating Plan.

THEME 1 - ACTIVE AND VIBRANT

An active and vibrant city is one that captures the energy, diversity, pride and potential of its community. It is a place where there are strong community relationships, good social support and healthy residents. People in an active and vibrant city enjoy a range of cultural and social opportunities, recreation facilities and are actively involved in the life of their City.

Goal: I feel a sense of health and wellbeing

Direction: We will access projects and programs that improve health and wellbeing

THEME 2 - SUSTAINABLE SPACES AND PLACES

A city of sustainable spaces and places is one whose residents recognise and act on their collective responsibility to protect their environment and to preserve it for future generations. It is a city where natural assets are cherished and where the built environment is equally critical in creating a sense of identity, history and community. The buildings, streets, public open spaces and natural environment are all safe, protected and well cared for.

Goal: I am proud of and value my City's natural environmental assets

Direction: We will facilitate and protect the environmental, cultural and social value of open spaces and foreshore areas
