REPORT

I would like to bring to Council's attention, that on Thursday, 14 May, Canada Bay was awarded the Best Inclusive Communications award for Rhodes at the national Government Communicator Awards for Excellence.

The national Government Communicator Awards for Excellence recognise and reward outstanding examples of communication strategy and implementation in line with best practice standards.

Over 20 entries were received in Best Inclusive Communications category. The other finalist was Transport NSW for their campaign in communicating to seniors about the Opal Card. Winning this award for our Inclusive Communications to the Rhodes community is a wonderful achievement for our staff and ultimately a huge win for our Rhodes community.

We continue to explore new and inventive ways to communicate and involve our community in all aspects of our communication strategy.

I ask that Council join me in congratulating all staff involved in winning this important award.

RECOMMENDATION

THAT Council note the report
